

Before printing ensure that your printer is set to 100% scale (do not have scale-to-fit turned on) and that you are printing on standard A4 paper (210mm x 297mm)

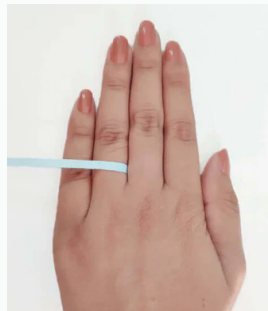

Find Your Ring Size in AU/NZ

Option 1 - Measure with string or a strip of paper

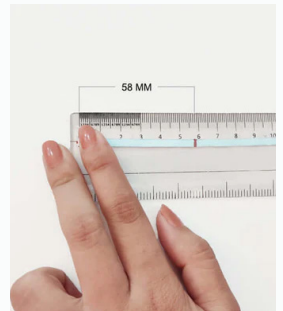

Use a thin piece of string or a strip of paper. If using string, make sure it is not stretchy.

Gently wrap around your finger, do not pull tight. Make sure the strip can glide over your knuckle.

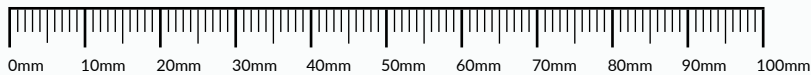

Mark your ring size with a pen. Measure your finger in the evening, after a typical workday and repeat 4-5 times for accuracy

Lay the string or paper out against a ruler and measure the length (mm). Match up your measurement with our chart to find your AU ring size. (next page)

RULER

As long as you are sure your page has been printed at 100% you can use this ruler to measure.

Do not use a measuring tape as they are not accurate enough with small measurements

Option 2 - Measure with an existing ring. Make sure this page is printed at 100%!

Making sure you printed this page at 100% (no scaling), place an existing ring over the circles below to find the matching size. The inner circle of your ring should align with the dotted circle. (little to no white should be visible). If you are in between sizes, you can choose the half size.
